

“Everyone has the right to have access to health care services ... The state must take reasonable legislative and other measures within its available resources, to achieve the progressive realisation of each of these rights...”

Crisis? What crisis?
Health sector responses to HIV in
South Africa

Crisis? What crisis?

Health sector responses to HIV in South Africa

Objectives

- Understand different perceptions of the nature of the public sector crisis in South Africa.
- Debate different options for addressing the problems
- Identify actions to redress

Speakers:

- David Saunders (PHM): Attaining health in an inequitable society: key challenges for health policy implementation in South Africa
- Mark Haywood (TAC): Is there political commitment to realise the right of everyone to have access to health care services?
- Karl von Holdt and Mike Murphy (NALEDI): An investigation into the management of public hospitals in South Africa: stressed institutions, disempowered management
- Helen Schneider (CHP): Between the promise and the practice of health sector transformation in South Africa
